Description: We selected this topic for its emphasis on how unique Gulliver is, and the inventory of experiences the school offers. Apart from this we found it to be a fun and non monotonous topic, one that could keep the reader entertained and captivated.

WE'RE

DIFFERENT.

DIFFERENT

Yes, that's right, we're **different**, and proud of it. It may look weird. Now, if you doubt us.

Just ask the peacocks that waltz about our campus, pridefully displaying their colorful feathers.

Or our proud football players who run out the blue arch on the first game of the season! Those are **different** players, with an even more **different** mindset.

The daily “make it a great day raiders!” from Karter Lowry on RSN never fails to lighten the mood in the sluggish, tired mornings, when we walk through our open air halls that are so **different** from other schools. Everything is so outdoorsy and fresh that it's impossible not to relax.

Our pep rallies and our performances filled with confidence. From racing on rolling chairs to hula hoop contests, every moment is filled with joy. Every act with a **different** touch. “blue and white is always right”, that’s just because those are our colors, our **different** colors.
